OBJECTIVES

We are a community of flamenco lovers who believe that dance is more than just an art form but a platform for individuals to express themselves freely and achieve artistic excellence. As a Singapore based non-profit organization, we are dedicated in bringing individuals from different nationalities together in our melting pot of dance, music and friendship.

VISION

From inspiring individuals through borderless artistic expression to appreciating the history behind flamenco, we believe in (and want to create) a Singapore that embraces flamenco as a way of life.

MISSION

By creating works that continuously challenge and inspire us as artistes, we hope to:

Push artistic borders by exploring new ways in showcasing flamenco whilst retaining the soul of this art form.

Make bridges by bridging cultural gaps and creating a platform for collaboration between artistes based in Singapore and overseas.

Inspire a nation through our arts education programs for the youth and community outreach, and supporting other non-profit organizations in raising awareness of social causes that are relevant in Singapore.

Over the past years, through theatre productions, traditional performances and outreach programs, we have reached out to at least 10,000 audience members per year. Flamenco Sin Fronteras continues to engage our local community as well as underserved sectors such as Seniors, Mental Health clients and Kids at Risk through our outreach programs. Through the National Arts Council, we have also been a regular face in outreach performances such as Arts in the Neighborhood, Silver Arts Festival, and NA
